Your Waste, Our Future

Waste Management Fees & Charges 2018 - 2019

DUNMORE RECYCLING & WASTE DISPOSAL DEPOT

Shellharbour City Council provides a facility for recycling, recovery, reuse and disposal. The fees and charges for disposal are designed to minimise waste to landfill and encourage materials separation and resource recovery. The more you sort your waste and separate recyclables, the more you will save on landfill disposal costs and help the environment by:

- Saving precious resources from landfill
- Reducing greenhouse gas emissions
- Conserving natural resources
- Managing consumption

Charges are per tonne, unless a minimum charge or other charges are specified. Waste to landfill charges includes the NSW Waste and Environment Levy of \$141.20 per tonne (ex. GST). This component of your fee is paid directly to the NSW State Government.

Revolve Centre

On entering the Dunmore Recycling & Waste Disposal Depot, you will find the Revolve Centre on the right. The Revolve Centre is a modern drop-off recovery, recycling and reuse centre.

Here you can offer your unwanted saleable second hand items prior to reaching the Transfer Station weighbridge.
